When I started the company in 2005, my vision was to establish a charter service that exceeded client expectations every time. That same vision is true today and with the experience, knowledge and passion of my dedicated team, we deliver hundreds of successful charter journeys every year.”

So much more than just a flight

We get you where you need
to go, when you want to be there,
in a way you wish to fly.

We save you precious time, working to your schedule, no matter how complex the itinerary - and we make it personalised to your requirements.

At Smart Aviation, we are global charter specialists. We are independent and uniquely positioned to deliver the perfect charter solution. Established for over 20 years, we have the most extensive network of contacts and reputable carriers. This means we can

negotiate the perfect aircraft at the most competitive pricing.

Naturally, we are members of The Air Charter Association, and trade ATOL holders, so you know that we're committed to delivering customer service excellence.

Our charter services include commercial aircraft, private jet and helicopter charters.

Commercial Jet Charter

Group travel made easy

Sports teams, corporate events, conference attendees or specialist holiday tours – whatever the group, we can cater for them.

With our commercial aircraft charter service for groups of 20+ passengers, you will have the full support of a dedicated charter specialist. Our experienced team are experts in listening and understanding your requirements. With their knowledge, and a large network of trusted contacts, suppliers and carriers ready to assist, you will be presented with the best options the market has to offer. Our reputation and leverage within the European market ensure we can source the best aircraft and services to suit your needs, at the most competitive price.

We are passionate about delivering an experience and not just a flight. Whether you are looking to create a corporate-branded hospitality experience, or deliver your staff to their destination quickly, rested and ready to work, we can customise the aircraft and its services.

So, relax. You're in safe hands – co-ordinating group travel is what we do.

Large group charter

Organising travel for large groups can be daunting and a logistically complicated task. Our large group charter service, catering for groups of 100+ passengers, not only takes the stress away from you but also provides your passengers with an enjoyable and convenient travel experience. From sports fan charters to tour operating or large corporate groups, we can get your group to their destination with personalised services, such as exclusive check-in areas, cabin branding and in-flight dining.

Small group charter

Our small group charter service is ideal for groups of 20+ passengers, such as sports teams, wedding parties or journalists, to name a few. With this service, you have the option to choose a VIP configured aircraft with a fully customised experience. Large, fully reclining sumptuous seats, bespoke catering and any personal touches that your group requires to ensure their flight becomes far more than just a mode of transport. It's essentially a combination of a large commercial aircraft with a private jet experience.
